DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Michael Godar on 23 August 2006.

The application has been amended as follows:

Claim 1, line 19:

Insert the phrase "through the access door" between the words "accessible" and "from".

Claim 10, line 15:

After the phrase "deposition chamber" insert the phrase ", wherein said at least two doors comprise an access door and a service door, said access door being configured to allow access to the deposition chamber from inside a cleanroom and said service door being configured to allow access to the deposition chamber from outside the cleanroom".

Claim 10, line 16:

Insert the phrase "through the access door" between the words "accessible" and "from".

Claim 11:

CANCELLED

Claim 13:

Change dependency to claim 10.

Art Unit: 1763

Claim 14:

Change dependency to claim 10.

Claim 15:

Change dependency to claim 10.

Claim 16:

Change dependency to claim 10.

Claim 17:

Change dependency to claim 10.

2. The following is an examiner's statement of reasons for allowance: The prior art of record fails to teach or fairly suggest a deposition enclosure for use in an apparatus having a cleanroom side and a service side, as recited in the pending claims. Specifically, the prior art of record fails to teach or suggest said enclosure comprising a shroud distinct from said cleanroom wall at least partially surrounding said access door to isolate the access door from the service side of said apparatus and to allow isolated access to the access door and deposition chamber from inside the cleanroom. Further, no other prior art was located that provided the missing teachings along with the requisite motivation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 1763

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. U.S. Patent Pub No. 2003/0159277 to Harris et al. discloses a shroud of a coating apparatus distinct from a clean room wall
